KCTCS is an equal opportunity employer and education institution.

HCC’s Practical Nursing Program Is Fully Approved by Kentucky Board of Nursing. www.kbn.ky.gov
HOPKINSVILLE COMMUNITY COLLEGE
MISSION STATEMENT

Hopkinsville Community College is accredited with the Southern Association of Colleges and Schools Commission on Colleges to award associate degrees. Contact the Commission on Colleges at 1866 Southern Lane, Decatur, Georgia 30033-4097 or call 404-679-4500 for questions about the accreditation of Hopkinsville Community College.

Note: The Commission is to be contacted only if there is evidence that appears to support an institution’s significant non-compliance with a requirement or standard.

Mission

Hopkinsville Community College is an inclusive, student-centered educational institution that provides accessible, innovative, and comprehensive learning opportunities within a supportive community that encourages academic excellence. The college sustains strong educational, community, military, agricultural, and economic partnerships to improve the quality of life in the southern Pennyrile region and Fort Campbell and enables students to be responsible citizens in a global society.

Hopkinsville Community College promotes excellence in teaching and learning by offering:

- Degree, diploma, and certificate programs and courses that enable students to transfer to four-year institutions, and acquire the knowledge and skills for new or continued employment.
- Developmental, academic and support services that promote student success.
- Customized business and industry training.
- Continuing education and community outreach.
- Adult education.

Hopkinsville Community College is a member of the Kentucky Community and Technical College System and is a public two-year degree granting institution.

Last approved by the KCTCS Board of Regents
March 2017

Vision

The first-choice institution of higher education and workforce training in our region.

Values

- Academic excellence and life-long learning
- Access and student success
- Stewardship of human, fiscal, capital, and environmental resources
- Leadership and community engagement
- Inclusion, multiculturalism, globally focused
- Continuous improvement
- Strong partnership with the military community

Vision and Values were last approved by Faculty/Staff in April 2016 and by Board of Directors in May 2016.
KENTUCKY COMMUNITY & TECHNICAL COLLEGE SYSTEM
PRACTICAL NURSING PROGRAM
STATEMENT OF PHILOSOPHY

The statement of philosophy and the objectives of the program are consistent with the philosophy and mission statement of the Kentucky Community and Technical College System and are supported by the works of the National League for Nursing, Quality and Safety Education in Nursing, and Abraham Maslow.

The faculty believe:

Practical nurses are integral members of the health care system, prepared to provide nursing care and health promotion activities to individuals across the life span in various health care settings under the direction of the registered nurse, licensed physician, and/or dentist.

**Nursing** is an art and a science that assists individuals across the life span with health promotion activities. Inherent to nursing are continued practice, education, and growth.

**Learning** is a life long process that produces change in behavior. This process enables the individual to become a productive, responsible member of an ever-changing society. We believe that learning proceeds from simple to complex and is enhanced through critical thinking and stimulation of the senses.

The **Individual** is a unique, holistic being worthy of dignity with rights to self-determination. The individual has functional health patterns, based on basic human needs across the life span, with rights and responsibilities in relation to self, family, and social groups.

**Health** is a fundamental right that allows individuals, families or communities to develop their potential to the fullest.

**Environment** encompasses the interaction of biological, socio-cultural, and physical components which influence health.

Practical nursing is administered by the Kentucky Community and Technical College System (KCTCS), with joint emphasis on didactic and clinical instruction. The practical nurse is prepared to assist with health promotion and to provide nursing care to individuals across the life span utilizing interpersonal communication skills and the nursing process.

**Practical Nursing Education** emphasizes the need for ongoing development of nursing knowledge and skills.

**References:**

Adopted:  October 2016
Implemented:  October 2016

**STUDENT LEARNING OBJECTIVES**

1. Assume the role of a competent, caring practical nurse in a variety of health care settings under the direct supervision of a registered nurse, licensed physician, or dentist.
2. Use human caring phenomena and the nursing process in providing nursing care.
3. Demonstrate self-direction and responsibility for maintaining nursing competence by pursuing personal and professional growth.
4. Communicate effectively with all members of the health care team.
5. Demonstrate accountability of practice with adherence to ethical and legal standards of the profession.
KENTUCKY COMMUNITY & TECHNICAL COLLEGE SYSTEM
PRACTICAL NURSING PROGRAM
ORGANIZING FRAMEWORK

The organizational framework implements the philosophy by providing substance and structure to identified concepts.

Faculty members believe that practical nursing education is built upon the following principles:

1. Practical nursing is built upon the core values of caring; diversity; ethics; excellence; holism; integrity; and patient-centeredness.
2. Basic human needs represent a major concept on which the practical nursing curriculum is developed. The nursing process is the vehicle through which the nurse enhances the health of the individual within one’s environment. The nurse incorporates cognitive and psychomotor skills, scientific and social foundations, communication skills and health promotion concepts in providing safe nursing care through the life span.
3. Six integrating concepts: context and environment; knowledge and science; personal and professional development; quality and safety; relationship-centered care; and teamwork are woven within the curriculum and serve as a unifying structure for organization of the curriculum.
4. Six concepts related to safety; patient-centered care; teamwork and collaboration; evidence-based practice; quality improvement; safety and informatics are threaded through the curriculum to emphasize that safety is an inherent component of all nursing activity.
5. Because the nursing faculty believe learning is a lifelong, dynamic process, the curriculum emphasizes the need for continued growth is one’s nursing practice.

Adopted: October 2016
Implemented: October 2016

Revised April 24, 2017
Core Values are those elements of Practical Nursing that are essential to entry level practical nursing practice and are a part of the four roles of nursing practice: human flourishing, nursing judgment, professional identity, and spirit of inquiry.

1. **Caring** The promotion of health, healing and hope in response to the human condition. It is a culture which characterizes the fundamental part of the nursing profession and demonstrates the nurses concern and consideration for the whole person, commitment to the common good, and outreach to those who are vulnerable. (NLN, 2007)

2. **Diversity** A culture of diversity is about understanding ourselves and each other and moving beyond simple tolerance to embracing and celebrating the richness of each individual. (NLN, 2007)

3. **Ethics** The integration of knowledge with human caring and compassion, while respecting the dignity, self-determination, and work of all persons. (NLN, 2010)

4. **Excellence** A commitment to continuous growth, improvement and understanding. It is a culture where transformation is embraced, and the status quo and mediocrity are not tolerated. (NLN, 2007)

5. **Holism** The understanding that “nurses are to consider every aspect of the human condition when planning, implementing, and managing care for patients.” (NLN, 2010, p. 14)

6. **Integrity** The respect “with humility, the human dignity of each individual patient, fellow nurse, and others whom the nurse encounters in the course of work. It is the recognition that certain actions will compromise the dignity of self and of the whole nursing profession and is being accountable for one’s own actions while being fully committed to the betterment of patient care while advocating for patients in a consistently professional and ethical manner.” (NLN, 2010 p. 13)

7. **Patient-Centeredness** The recognition that each individual that is given nursing care is unique and that each has a background, culture, values, traditions and family that has contributed to that uniqueness. It “supports the respectful, efficient, safe, and well-coordinated transition of the patient through all levels of care.”

Emerging from core values are six integrating concepts which are defined as:

1. **Context and Environment** “In health care, it encompasses organization structure, leadership styles, patient characteristics, safety climate, ethical climate, teamwork, continuous quality improvement, and effectiveness.” (NLN, 2010 p. 17)

2. **Knowledge and Science** “The foundations that serve as a basis for nursing practice, which in turn, deepen, extend, and help generate new knowledge and new theories that continue to build the science and further the practice.” (NLN, 2010 p. 20)

3. **Personal and Professional Development** “A lifelong process of learning, refining, and integrating values and behaviors that (a) are consistent with the profession’s history, goals, and codes of ethics; (b) serve to distinguish the practice of nurses from that of other health care providers; and (c) give nurses the course needed to continually improve the care of patients, families, and communities and to ensure the professional’s ongoing viability.” (NLN, 2010 p. 23)

4. **Quality and Safety** “The degree to which health care services 1) are provided in a way consistent with current professional knowledge; 2) minimize the risk of harm to individuals, populations, and providers; 3) increase the likelihood of desired health outcomes; and 4) are operationalized from an individual, unit, and systems perspective.” (NLN, 2010 p. 25)

5. **Relationship-Centered Care** “Positions (a) caring; (b) therapeutic relationships with patients, families, and communities; and (c) professional relationships with members of the health care team at the core of nursing practice. It integrates and reflects respect for the dignity and uniqueness of others, valuing diversity, integrity, humility, mutual trust, self-determination, empathy, civility, and the capacity for grace, and empowerment.” (NLN, 2010 p. 27)

6. **Teamwork** The ability to “function effectively within nursing and interprofessional teams, fostering open communication, mutual respect and shared decision making to achieve quality patient care.” (NLN, 2010, p. 30)
Goals of nursing education for entry into nursing practice are defined as:

1. **Human Flourishing**  Promotion of the “human dignity, integrity, self-determination, and personal growth of patients, oneself, and members of the health care team.” (NLN, 2010, p. 37)
2. **Nursing Judgment**  Provision of a “rationale for judgments used in the provision of safe, quality care and for decisions that promote the health of patients within a family context.” It includes critical thinking, clinical judgment, and integration of best evidence into practice. (NLN, 2010 p. 37)
3. **Professional Identity**  Assessment of “one’s personal strengths and values and the ways they affect one’s identity as a nurse and one’s contributions as member of the health care team.” (NLN, 2010 p. 37)
4. **Spirit of Inquiry**  Questioning the “basis of nursing actions” taking into consideration “research, evidence, tradition, and patient preferences.” (NLN, 2010 p. 37)

Safety in nursing education for entry into nursing practice are defined as:

1. **Patient-Centered Care**  The recognition that the patient is the source of control and full partner in providing compassionate and coordinated care that is based on respect for the patient’s preferences, values, and needs.
2. **Teamwork and Collaboration**  The ability to function effectively within nursing and inter-professional teams, fostering open communication, mutual respect, and shared decision-making to achieve quality patient care.
3. **Evidence-Based Practice**  The integration of the best current evidence with clinical expertise and patient/family preferences and values for delivery of optimal health care.
4. **Quality Improvement**  Use of data to monitor the outcomes of care processes and use improvement methods to design and test changes to continuously improve the quality and safety of health care systems.
5. **Safety**  The minimization of risk of harm to patients and providers through both system effectiveness and individual performance.
6. **Informatics**  The use of information and technology to communicate, manage knowledge, mitigate error and support decision making.

ELIGIBILITY

Nursing at the technical level involves the provision of direct care for individuals and is characterized by the application of verified knowledge in the skilled performance of nursing functions. All students should possess:

- sufficient visual acuity, i.e. to accurately prepare and administer medication and to participate in the observation necessary for client assessment and nursing care.
- sufficient auditory perception to receive verbal communication from client and members of the health care team as well as to assess health needs of people through the use of monitoring devices such as cardiac monitors, stethoscopes, IV infusion pumps, dopplers, fire alarms, etc.;
- sufficient gross and fine motor coordination to respond promptly and to implement the skills, including the manipulation of equipment, required in meeting health needs;
- sufficient communication skills (speech, reading, writing) to interact with individuals and to communicate their needs promptly and effectively as may be necessary in the individual’s interest;
- sufficient intellectual and emotional functions to plan and implement care for individuals;
- the ability to lift and/or move up to 50 pounds and;
- the ability to be on feet for 8 – 12 hour clinical.

Enrollment in the Practical Nursing Program may be limited because of available laboratory facilities in the community, as well as limited faculty and financial resources at the community college.

TIME COMMITMENT

The Practical Nursing Program is a vigorous and intensive program of study. Success in the program requires a major commitment to make studying a priority. Study outside of class is a requirement as well as practice time for nursing skills. Working more than 20 hours/week is discouraged due to the time requirements in the program. Students need to have good time management skills as well as assistance with childcare and finances.
ADMISSION REQUIREMENTS FOR THE PN PROGRAM

Acceptance into the Practical Nursing Program is based upon a selective admission process. The KCTCS system guidelines and HCC admission guidelines will be followed. In addition, the HCC Nursing Program requirements must be met.

Deadlines are May 15th for the Fall admission cycle and October 30th for the Spring admission cycle. Requirements that must be submitted are listed below.

BY APPLICATION DEADLINE OF EITHER MAY 15TH OR OCTOBER 30TH:

- Submit an application to Hopkinsville Community College to the Admissions Office. All college admission requirements must be met.
- Submit official college transcripts to the Office of the Registrar for evaluation. The Registrar’s office has the final determination in what credits will transfer from other institutions.
- Submit official ACT or SAT scores to the HCC Admissions Office. Minimum acceptable score for consideration to the PN Program is an ACT composite of 18 or an SAT combined score of 860 in critical reading and math.
  - The writing portion of the ACT is not required for the nursing program.
  - NOTICE: Do not assume the Nursing Department has your ACT or SAT score. Please follow up with the Admissions Office or the Nursing Department to confirm.
  - Please see next page for Waivers to the ACT/SAT requirement.
- Attend a Nursing Pre-Admission Conference (PAC) where the nursing program applications will be distributed. Dates, times, and locations will be available on the Nursing website or by contacting the department.
- Complete the National League for Nursing (NLN) Pre-Admission Exam (PAX-RN).
  - To be considered eligible, an applicant must earn a minimum composite score of 99.
  - A student may only re-take the PAX-RN exam once every six (6) weeks.
  - PAX-RN scores expire after three (3) years.
  - To register for the PAX-RN, please visit https://ondemand.questionmark.com/400030/ext/nlntesting/.
- Submit a Nursing application to the Nursing Department staff.
- Must be in good academic standing with the College with at least a 2.0 GPA with a grade of C or higher in all math, science, and pre-requisite courses.

REQUIREMENTS THAT CAN BE MET AFTER THE APPLICATION DEADLINE:

- Completion of BIO137, BIO139, PSY110, and PSY223
  - If seeking Fall admission, applicants must complete these requirements with a minimum grade of C by the end of the Summer term. This means students may enroll in the courses during Summer term. However, if they are not successfully completed by a student who is accepted to the program, the student MUST decline his/her seat and reapply for a later admission cycle.
  - If seeking Spring admission, applicants must complete these requirements with a minimum grade of C by the end of the Fall term. This means students must be enrolled in the courses during the Fall term even if they are not completed by the October 30 deadline. If an applicant is accepted to the program and does not successfully complete the prerequisite courses by the end of Fall term, he/she MUST decline the seat and reapply for a later admission cycle.
- Achievement of nurse aide certification (CNA)
  - If seeking Fall admission, applicants must be on a state nurse aide registry with an active certification in good standing by the end of Summer term.
    - Applicants should not expect to be able to take the NAA100 course during the summer term and be able to take the state nurse aide exam to be on the state nurse aide registry by the end of Summer term. Generally, the summer term does not allow enough time to complete this process.
  - If seeking Spring admission, applicants must be on a state nurse aide registry with an active certification in good standing by December 31.
    - Applicants should not expect to complete a NAA100 course during the Fall term that ends in December and have time to take the state nurse aide exam to be on the state nurse aide registry by December 31.
WAIVERS TO ACT/SAT TESTING REQUIREMENTS

Minimum ACT/SAT scores are a prerequisite. This requirement may be waived in the following situations:

- Has completed an Associate degree or higher from an accredited University/College;
- Has documented military experience as a medic;
- Obtains a composite score of 115 or higher on the NLN Pre-Admission Exam (PAX-RN).

IMPORTANT TO REMEMBER:

It is the student’s responsibility to keep informed of current admission guidelines. The student must be responsible for the status of his/her own nursing file.

Upon admittance into the PN program, students must have completed or be registered for the first semester co-requisite course AHS120 (AHS115 or CLA131 may be substituted). Due to the nursing course schedule, evening, Saturday, or on-line co-requisite courses may be necessary.

Each NPN course is a pre-requisite for the following semester of NPN courses and must be taken in the sequence listed. NPN courses cannot be taken in an earlier semester.

Each co-requisite course must be taken in semester indicated or before.

The Kentucky Board of Nursing may deny licensure to a nursing graduate who has been convicted of a misdemeanor or felony that involves acts that bear directly on the qualifications of the graduate to practice. For more information, go to [www.kbn.ky.gov](http://www.kbn.ky.gov).

Students are encouraged to schedule an appointment to meet with a Nursing advisor to ensure they have met or have a plan to meet the general education courses and testing requirements to be eligible for admission.
SELECTION PROCESS

An offer of admission may be granted to applicants who have:
- ALL admission materials submitted by the application deadline;
- All the application requirements met;
- The highest PAX-RN composite scores.

Students must be in good academic standing with the College with at least a 2.0 overall GPA with a grade of C or higher in all math, science, and pre-requisite courses.

ADMISSION PROCEDURE

Only students with completed files will be considered for admission to the HCC Nursing Program. It is the student’s responsibility to ensure the file in the nursing department has all documents necessary for admission.

- On the basis of the PAX-RN composite score, the Nursing Admissions Committee recommends to the Academic Dean the names of those who will be admitted to the nursing program.
- Applicants will be notified in writing if they have or have not been selected for enrollment in the nursing program. Letters for acceptance, waiting list, or denied admission will be mailed on June 15 for the fall admission cycle and on November 30 for the spring admission cycle. No selection information will be available by phone. Please allow up to one week from these dates for mail delivery.
- A waiting list may also be selected. Applicants on the waiting list may be admitted to fill positions vacated by admitted students prior to the beginning of the semester. Due to privacy issues, location on waiting list cannot be given to applicants. The waiting list is only used for the current admission cycle. The waiting list does not carry over to the next admission cycle.
- In the event that a tie should occur in relation to PAX-RN scores, preference may be given to the student with the highest ACT and GPA generated from the program curriculum pre-requisite courses.

REQUIREMENTS FOR STUDENTS ACCEPTED TO THE PN PROGRAM

Applicants who receive an acceptance offer will be given a “checklist” of items to complete. Some of these items are listed below:

- Provide documentation of results of these lab tests:
  - Tuberculosis (TB) Skin Test – within past one (1) year
  - Varicella (immunization or titer) – within past ten (10) years
  - Measles, Mumps (Rubeola), Rubella (MMR immunization or titer) – within past ten (10) years
  - Hepatitis B (immunization or titer) – within past ten (10) years
- Provide documentation of Tetanus shot – within past ten (10) years
- Provide proof of health insurance
- Provide proof of CPR certification for the healthcare provider through American Heart Association (cannot accept CPR through American Red Cross)
- Complete criminal background check – Information on background check company will be provided
- Complete nine-panel drug screening – Information on what lab to use will be provided

STUDENTS WILL NOT SUBMIT ANY OF THE ABOVE DOCUMENTATION PRIOR TO ACCEPTANCE TO THE NURSING PROGRAM. THIS INFORMATION IS ONLY INTENDED TO HELP PROSPECTIVE STUDENTS PLAN.
RE-APPLICATION POLICY

If an applicant is not accepted into the program and wishes to reapply during a different admission cycle, he/she must attend a Pre-Admission Conference and submit a new nursing admission application by the desired admission cycle deadline to be considered. All program enrollment requirements must be satisfied for the desired year of application. These materials must be submitted by the admission cycle deadline of the semester for which re-application is requested.

If you are not accepted into the program based on the application material submitted following attendance at this conference, you must attend a new conference during a later admission cycle. Attendance to a conference is required each semester you apply for admission into the program.

RE-ADMISSION POLICY

In order to be considered for re-admission by the Nursing Admissions Committee, the applicant must:

- Submit a written request to the Nursing Program Director
- Meet current admission guidelines listed below
  - ACT minimum composite score of 18 for PN program - Equivalent SAT scores (combined Critical Reading & Math) of 860
  - Good academic standing with the College with at least a 2.0 GPA with a grade of C or higher in all math, science, and pre-requisite courses
- Be recommended by the nursing faculty from the past semester
- Demonstrate competency by:
  - Passing with a score of 75% or greater an exam equivalent to the comprehensive final exam for the previously passed nursing courses; and
  - Passing a skills competency review reflective of previously passed nursing courses.

Note: The exams and skills competency can be taken only once per readmission cycle. The student must successfully complete both the competency exam and the skills demonstration to be considered for readmission.

A student may be considered for re-admission to the Nursing Program one time. The Nursing Admissions Committee may recommend readmission a second time only if a student furnishes sufficient evidence of remedial study, additional preparation or resolution of factors contributing to unsuccessful course completion. Nursing faculty recommendation will be considered.

If more than three years have elapsed since initial enrollment in the first nursing course of the Nursing Program, an applicant must repeat all nursing courses.

Acceptance of any re-admitted student will be dependent upon available space and resources.
TRANSFER POLICY

Applicants who wish to transfer from one KCTCS Nursing Program or other nursing programs to the Hopkinsville Practical Nursing Program must:

- Meet all admission requirements of the receiving institution as listed below:
  o Submit an application to Hopkinsville Community College to the Admissions Office. All college admission requirements must be met.
  o Submit other official college transcripts to the Office of the Registrar for evaluation. The Registrar’s office has the final determination in what credits will transfer from other institutions.
  o ACT minimum composite score of 18 for PN program - Equivalent SAT scores (combined Critical Reading & Math) of 860 for PN program
  o Attend a Pre-Admission Nursing Conference (PAC) and submit a nursing admission application.
  o For transfers into 1st Semester, you must have an active status on a State Nurse Aide Registry. For transfers into 2nd Semester or later, your status on a State Nurse Aide Registry can be active or lapsed as long as you completed a 1st Semester Fundamentals course with a grade of “C” or higher.
  o Take the National League for Nursing (NLN) Pre-Admission Exam (PAX-RN).
  o Be in good academic standing with the College with at least a 2.0 GPA with a grade of C or higher in all math, science, and pre-requisite courses
- Notify the Nursing Director in writing, stating anticipated entry date and reason for transfer;
- Have a faculty member from the program previously attended submit a letter of recommendation to the receiving institution;
- Submit documents to Admissions Committee of previous courses passed as requested (i.e. course syllabi, course content, course skills, etc.); and
- Demonstrate competency by:
  o Passing with a score of 75% or greater, an exam equivalent to the comprehensive final exam for the previously passed nursing courses; and
  o Passing a skills competency review reflective of previously passed nursing courses.

Note: The exams and skills competency can be taken only once per admission cycle. The student must successfully complete both the competency exam and the skills demonstration to be considered for acceptance. Students who are not successful can elect to enter the applicant pool to the first nursing course.

Mail the transfer documents to the Director of the Nursing Program, P.O. Box 2100, Hopkinsville, KY 42241.

If more than three years have elapsed since initial enrollment in the first nursing course in any registered nursing program, an applicant must repeat all nursing courses.

Acceptance of any transfer student will be dependent upon available space and resources.
LOOKING BEYOND OBTAINING YOUR LPN LICENSE: LPN TO RN BRIDGE COURSE

Licensed Practical Nurses who maintain a nursing license may be admitted into the second semester of the Associate Degree Nursing Program if the criteria for admission is met and the Admissions Committee recommends acceptance. These students may enroll in the NSG197 Transition to ADN Practice (Bridge Course).

This NSG197 Bridge Course is a 3 credit hour course which consists of 2.5 credit hours in lecture (37.5 contact hours) and 0.5 credit hours in lab (22.5 contact hours). The pre-requisites listed below must be completed with a grade of C or higher to be eligible for this course.

- BIO137 Anatomy & Physiology I
- BIO139 Anatomy & Physiology II
- PSY110 General Psychology
- PSY223 Developmental Psychology
- MAT150 College Algebra
- CIT105 Introduction to Computers or IC3 Fast Track competency exam (score of 750 or higher)

Co-requisite courses, which must be completed with a grade of C or higher prior to or in conjunction with NSG197, are listed below.

- ENG101 Writing I
- Oral Communications (COM181 Basic Public Speaking or COM252 Introduction to Interpersonal Communication)

Students in the NSG197 Bridge Course will be enrolled in NSG215 Pharmacology and NSG212 Behavioral Health Nursing in the same semester. All three courses must be completed with a grade of C or higher to continue in the program.

The students in the NSG197 course are included in the lecture and exam portions of the NSG210 Medical Surgical Nursing course with the traditional RN students. However, the NSG197 students do not participate in clinical/lab unless this is identified as an area in which they need extra assistance and practice.

Advanced placement students (Bridge) will take a total of 7 credit hours in 2nd Semester Nursing courses 197, 215, and 212 instead of the traditional 10 credit hours.

BY APPLICATION DEADLINE OF EITHER MAY 15TH OR OCTOBER 30TH:

- Submit an application to Hopkinsville Community College to the Admissions Office. All college admission requirements must be met.
- Submit official college transcripts to the Office of the Registrar for evaluation. The Registrar’s office has the final determination in what credits will transfer from other institutions.
- Attend a Nursing Pre-Admission Conference (PAC) where the nursing program applications will be distributed. Dates, times, and locations will be available on the Nursing website or by contacting the department.
- Complete the National League for Nursing (NLN) Pre-Admission Exam (PAX-RN).
  - To be considered eligible, an applicant must earn a minimum composite score of 111.
  - A student may only re-take the PAX-RN exam once every six (6) weeks.
  - PAX-RN scores expire after three (3) years.
  - To register for the PAX-RN, please visit [https://ondemand.questionmark.com/400030/ext/nlntesting/](https://ondemand.questionmark.com/400030/ext/nlntesting/).
- Submit a Nursing application to the Nursing Department staff.
- Must be in good academic standing with the College with at least a 2.0 GPA with a grade of C or higher in all math, science, and pre-requisite courses.

REQUIREMENTS THAT CAN BE MET AFTER THE APPLICATION DEADLINE:

- Completion of BIO137, BIO139, PSY110, PSY223, MAT150, and CIT105 (or IC3 Fast Track Exam)
  - If seeking Fall admission, applicants must complete these requirements with a minimum grade of C by the end of the Summer term. This means students may enroll in the courses during Summer term. However, if they are not successfully completed by a student who is accepted to the program, the student MUST decline his/her seat and reapply for a later admission cycle.

Revised April 24, 2017
Page 13
If seeking Spring admission, applicants must complete these requirements with a minimum grade of C by the end of the Fall term. This means students must be enrolled in the courses during the Fall term even if they are not completed by the October 30 deadline. If an applicant is accepted to the program and does not successfully complete the prerequisite courses by the end of Fall term, he/she MUST decline the seat and reapply for a later admission cycle.
ESTIMATED EXPENSES AND FINANCIAL ASSISTANCE

Financial assistance is available in the form of scholarships, grants, loans, and work-study. Information on financial assistance can be found on the college website [https://hopkinsville.kctcs.edu/Costs_and_Financial_Aid/](https://hopkinsville.kctcs.edu/Costs_and_Financial_Aid/) and at [www.kbn.ky.gov/education](http://www.kbn.ky.gov/education).

In addition to tuition costs, nursing students are responsible for supplemental expenses such as: transportation to various clinical facilities, purchase of professional liability insurance, textbooks, blood tests, uniforms, etc.

Anticipated Additional Expenses not including tuition ($3,533-3,933):
1. Professional Liability Insurance: $11 per semester ($33 total program)
2. Uniforms and lab coat: $150
3. White shoes, hose/socks, watch with second hand, stethoscope, goggles, and bandage scissors: $150
4. Books, Kits, Access Codes (total for all three semesters): $1,450.00
5. Travel to school and clinical facilities: $200 per year
6. Nursing lab supply kit: $100 per year
7. HKANS & NSNA Membership Fees (optional): $50
8. Background Check (provider selected by Nursing Department): $50-100 1st year, $15 2nd year
9. Drug Screen: $35 per year
10. CPR Training (American Heart Association BLS Healthcare Provider): $50-100
11. Nursing pin (optional): $80-480
12. NCLEX Exam: $200
13. Licensure Fee (Varies by state): $100
14. Kaplan course material – course charge added to tuition: approximately $520
15. Graduation Expenses (cap, gown, tassel, diploma cover, announcements): $50

Tuition Rates for 2016-2017

PROGRAM CRIMINAL BACKGROUND CHECK AND DRUG SCREEN POLICIES

The Nursing Programs in the Allied Health Division at Hopkinsville Community College require students to obtain criminal background checks through the vendor selected by the Nursing Department. This is to ensure a safe clinical environment for both students and the public and to meet the contractual requirements of area healthcare facilities.

Hopkinsville Community College has established an acceptable screening procedure, which will be provided upon acceptance into the program. Students who fail to submit a background check through the vendor selected by the Program cannot complete or maintain enrollment in any Hopkinsville Community College health program.

If a facility requires additional criminal background checks, it will be the responsibility of the student to obtain the check and have the information sent to the facility.

Because we are a Health Care Industry provider and both the general public and our clinical facilities expect and require drug free students/employees, ALL STUDENTS will be required to submit an annual nine panel drug screening test. Information for completing this procedure will be provided upon acceptance into the program.

The Nursing Coordinator will maintain all records and a confidential database concerning students’ criminal histories and drug test results. This information will be filed in a secured area to ensure confidentiality and will not be released to any third party without written consent and knowledge of the student.

NCLEX CRIME CONVICTION GUIDELINES

Students that have been convicted of a felony or misdemeanor must submit documentation to the board of nursing in the state of desired application. Contact the board of nursing at least six months prior to graduation. You may want to contact the board of nursing before beginning the program of nursing. The state board of nursing has the final decision to allow students to take the NCLEX. This process should be taken seriously!

Listed below are the actual crime conviction guidelines:

(1) Pursuant to KRS 314.091(1)(b), a conviction of a felony or misdemeanor shall be considered as bearing directly on the qualifications or ability of an applicant to practice nursing if the conviction involved:
   (a) Dishonesty;
   (b) Substance abuse;
   (c) Sexual offenses;
   (d) Breach of trust;
   (e) Danger to the public safety;
   (f) Physical harm; or
   (g) Endangerment.

(2) A felony or misdemeanor conviction shall be reviewed to determine whether:
   (a) The application shall be processed with no further action;
   (b) The application shall be processed only after the applicant has entered into an Agreed Order with the Board with terms and conditions as agreed to by the parties; or
   (c) A Notice to Deny Licensure shall be issued. A Notice to Deny Licensure shall inform the applicant that he may request a hearing. The request shall be in writing.

(3) A complaint received by the Board alleging a violation of KRS 314.091(1) shall be handled in the same manner as set forth in subsection 2 of this section.
AMERICAN WITH DISABILITIES ACT/DISCRIMINATION

Any physical or mental impairment that substantially limits one or more major life activities is a disability. Any student needing ADA accommodations must contact the Chief Student Affairs Office as well as Peggy Bozarth, Nursing Program Director.

Hopkinsville Community College does not discriminate on the basis of race, color, national origin, sex, disability, age, religion, and marital status in admission to vocational programs or access to or treatment or employment in accordance with Title VI, Title IX, Section 504, and ADA Act. For more information, contact Dr. Jason Warren, Dean of Student Affairs, at (270)707-3801 or by mail at Hopkinsville Community College, P.O. Box 2100, Hopkinsville, KY 42241-2100.
DRESS CODE POLICY FOR STUDENTS ENROLLED IN THE HCC NURSING PROGRAM

The Hopkinsville Community College Nursing Programs have set guidelines regarding how students should dress for off-campus clinical days, on-campus simulation labs, and skill check offs.

No specific dress code is in place for on-campus lectures.

CLINICAL ATTIRE MUST BE WORN FOR ALL SIMULATION LABS AND SKILL CHECK OFFS

Uniforms/Scrubs/Lab Coats:
1. Students are to purchase appropriate uniforms/scrubs through the Hopkinsville Community College Bookstore. This includes the uniform top and bottom as well as a lab coat.
   a. The HCC Bookstore is the required source for purchasing uniforms unless the Bookstore does not have the appropriate size or cannot order a garment, such as a skirt.
   b. If the Bookstore cannot supply the appropriate size or garment, the student will be responsible for making sure any uniform piece purchased from another source is in a color that is as similar as possible to the color available in the Bookstore. Instructors will advise students if the color is not close enough to the required color. If students disagree with the decision of the instructors, the Program Director will have the final decision.
2. If a student chooses to wear a shirt under the uniform/scrub, it must be white and without markings.
3. For students who choose to wear a uniform skirt instead of uniform pants, white or nude color pantyhose must be worn. Knee socks are not acceptable.
4. Clean, white, solid, closed-toed shoes and white socks are required.
5. A patch with the HCC logo must be worn on the left sleeve of both the uniform and lab coat. The patch should be purchased through the HCC Bookstore.
6. Lab coats and uniforms are to be clean and without wrinkles.
7. A full-length white lab coat is required for covering the uniform.
   a. A lab coat and name badge is required over street clothes when the student is in the clinical area for the purpose of obtaining assignments.
   b. No jackets/coats are to be worn over lab coat when in the clinical facility.
   c. Students are not to wear jeans, shorts, t-shirts, halter/tube tops, sandals/open toe shoes during any on-campus or off-campus clinical, simulation lab, or Layered Learning. No mid-driff showing.

Hair/Personal Hygiene Care:
1. Hair ornaments must not be worn with the uniform, including headbands or ribbons with color. Any accessories used to hold the hair back must be brown, black, or beige to match the student’s hair color.
2. For both male and female students, the hair must be worn in a style away from the face and an appropriate style which cannot fall into the field of patient care.
3. Only natural hair colors are acceptable.
4. Hair (including facial hair), body and fingernails must be clean and neat at all times.
5. Fingernails must not be longer than ¼ inch from the tip of the finger and must be without polish. No “fake”, acrylic tips or cosmetic fingernails are allowed in any clinical facility (observational activity or a routine clinical day with patient care).
6. Good oral hygiene must be evident.
7. No perfume should be worn in the clinical area.
8. Students exhibiting body odor including the obvious smell of tobacco products will be asked to leave the clinical area and receive an “absence” for the day.
9. No chewing gum is allowed in the clinical area.

Jewelry/Sunglasses:
1. Jewelry is limited to a plain wedding band and one small stud earring on each ear lobe.
2. Jewelry in other visible body piercing must be removed or covered.
   a. Nothing must be in the tongue, lip, nose, or multiple ear piercing. This means that no student may wear more than one pair of earrings.
   b. The student will be asked to remove the jewelry from any piercing in order to remain in clinical.
   c. Large piercings must be filled with flesh tone spacers.
3. Sunglasses should not be worn on the top of head or hanging on the outside of the uniform.
Tattoos:
1. All tattoos must be fully covered. This refers to tattoos on any part of the body, including arm, hand, leg, foot, shoulder, neck, and face.
2. For tattoos above the uniform neck opening, a turtleneck or mock turtleneck must be worn.
3. Check with your instructor for suggestions on appropriate ways to cover tattoos.
4. No tattoos must be perceptible by the patient.

Required Accessories for Clinical Attire:
1. A wrist watch with a second hand, a stethoscope, pen light, bandage scissors, and electronic device for clinical resources are required.
2. A pen, pencil, and note paper should be carried in the uniform pockets.
3. Students are required to wear their nursing badges to all clinical labs, including simulation lab and Layered Learning.
4. Goggles are required when performing procedures in which body fluids might contact the student’s eyes.

Notice:
1. Any other instructions regarding uniforms will be given prior to clinical in each course.
2. Any alterations to the uniform must be preapproved by Nursing faculty.
3. Infractions of this dress policy may result in the student being sent home from clinical and assigned an absence which must be made up.

*May take the IC3 Fast Track competency exam instead of a computer course. Must score a minimum of 750 out of 1000 points on the IC3 Fast Track exam.*

| Total Third Semester Courses | 17 |

| Total Practical Nursing Program Credits | 59-62 |

^ General Education Courses: The general education coursework may be taken prior to nursing courses or as they are listed in the nursing curriculum. Students cannot progress to the next semester without completion of the NPN and general education course/courses for that semester.

+ Must earn a minimum of a “C” in all pre-requisite, science, math, and nursing courses to progress in the program. Each NPN course is a pre-requisite for the following semester of NPN courses and must be taken in the sequence listed.

Students are strongly encouraged to complete MAT150 prior to beginning the PN Program to enhance success in nursing courses that introduce and instruct in concepts of dosage calculations and medication administration.

Grading Scale for Nursing (NPN) courses:  
A: 92 – 100  
B: 84 – 91  
C: 75 – 83  
D: 65 – 74  
E: 0 – 64
